## About me

I am a dynamic and results-oriented professional with a passion for Artificial intelligence and machine learning field. With least years of experience, I have developed a mini project in machine learning, digital image processing, mobile application development. I am highly motivated and thrive in fast-paced environments that require adaptability and innovative thinking.

## Education

### High school

**Sudana residential School** 2018

High School is a pivotal period in an individual's academic journey, and I am proud to have attended sudana High School, an institution that has truly shaped my educational and personal growth. The school's comprehensive curriculum exposed me to a wide range of subjects, allowing me to develop a strong foundation in various disciplines while fostering my curiosity and critical thinking skills. Additionally, the school's commitment to extracurricular activities enabled me to engage in leadership roles, collaborate with diverse groups of students, and cultivate valuable skills such as teamwork, time management, and problem-solving. And i scored **85 Percent** at SSLC .

### PUC degree

**Nrendra pre university** 2020

I had the privilege of attending Narendra Pre-University College, an institution that played a significant role in shaping my academic journey and preparing me for the challenges of higher education. Narendra College provided a nurturing and intellectually stimulating environment that fueled my passion for learning and personal growth. Additionally, Narendra College fostered a culture of holistic development, encouraging active participation in extracurricular activities, community service initiatives, and leadership roles. Through these experiences, I honed my communication, organizational, and interpersonal skills, equipping me with a well-rounded skill set that extends beyond the classroom. And i scored **80 percent** at Plus Two.

### B.E degree

**Vivekananda college of Engineering university** 2024

I am privileged to have attended VCET Engineering University College, a distinguished institution renowned for its exceptional engineering programs and commitment to academic excellence. At VCET University College, I embarked on a transformative journey that not only equipped me with a solid foundation in engineering principles but also nurtured my problem-solving abilities and analytical thinking skills and presently holding **8.3 CGPA**.
